

**Product Name :**  
Magnetic Amplifier Control System**Product Code :**  
CSL006 LAB ENGINEERING**Description :**

Magnetic Amplifier Control System

**Technical Specification :**

Magnetic Amplifier Control System To study input-output characteristic of a magnetic amplifier Two saturable reactors in one frame 2 Rectifiers Fixed Resistive load DC bias voltage One potentiometer Two digital meters Supporting literature with patch cords, 220V mains operated

 **LAB ENGINEERING****Elab Engineering Equipments Manufacturers**
