

Product Name :
Magnetic Amplifier Control System**Product Code :**
CSL0019 LAB ENGINEERING**Description :**

Magnetic Amplifier Control System

Technical Specification :

Magnetic Amplifier Control System Magnetic Amplifier Control System To study input-output characteristic of a magnetic amplifier Two saturable reactors in one frame 2 Rectifiers Fixed Resistive load DC bias voltage One potentiometer Two analog meters Supporting literature with patch cords, 220V mains operated

 **LAB ENGINEERING****Elab Engineering Equipments Manufacturers**
