

Product Name :
Servo Stabilizer System**Product Code :**
CSL0021 LAB ENGINEERING**Description :**

Servo Stabilizer System

Technical Specification :

Servo Stabilizer System Servo Stabilizer System To study servo controlled AC voltage stabilizer as position control system Dimmer (1 KVA) with Servomotor Output Sense transformer Loads (heating elements) Loop Process with variable gain AC Voltmeter and Ammeter Waveform capture card (optional) Supporting literature with patch cords, 220V mains operated.

 **LAB ENGINEERING****Elab Engineering Equipments Manufacturers**
