

Product Name :
Shell & Tube Heat Exchanger**Product Code :**
ELABBAT0020 LAB ENGINEERING**Description :**

Shell & Tube Heat Exchanger

Technical Specification :

Shell & Tube Heat Exchanger Technical Description The heat exchanger is connected to the service unit using quick-action hose couplings and secured with star grip screws. The temperature sensors for measuring the feed and return temperature are on the supply connections. The shell of the heat exchanger is made of transparent plastic so that the tubes are fully visible. Shell and tube heat exchangers are typical industrial heat exchangers and are manufactured up to very large sizes
