

Product Name :
Tubular Heat Exchanger**Product Code :**
ELABBAT0022 LAB ENGINEERING**Description :**

Tubular Heat Exchanger

Technical Specification :

Tubular Heat Exchanger Technical Description The heat exchanger is connected to the service unit using quick-action hose couplings and secured with star grip screws. The temperature sensors for measuring the feed and return temperature are on the supply connections. The tubular heat exchanger includes 2 additional temperature sensors for measuring the mean temperature. Connections for these additional temperature measuring points are provided on the service unit.
