

**Product Name :**  
Pump Demonstration Working Model

**Product Code :**  
ELABBAWD007

**Description :**

Pump Demonstration Working Model

**Technical Specification :**

Pump Demonstration Working Model This “see through” training model has many features that can be used to train operators on the mechanical workings of a centrifugal pump. By manipulating the flow with suction and discharge valves and adjusting RPM's this model can demonstrate cavitation and other pump and flow phenomena. Our Pump Demonstration Model is a very popular tool for a site and sound concept of these workings, which cannot be experienced in the field or with drawings or computer simulations.
