

Product Name :
Pre Pinch Cum Pyrmid Type Plate Rolling Machine

Product Code :
ss0007

Description :

Pre Pinch Cum Pyrmid Type Plate Rolling Machine

Technical Specification :

- Three Roll Symmetrical Principle for Pre-pinching of Plate ends & Rolling Without Removing the Plate.
- Modern Design, Robust Steel Construction.
- High Quality Alloy Steel Rolls.
- Built in Cone Rolling Feature.
- Precise Controls Through Push Button Operation with Interlock Circuit.
- Electrical / Mechanical Overload Protection.
- Centralised Lubrication System.
- Rool Position Setting by Dial / Scale Readout.

CAPACITY RANGE :

- Plate Thickness : 5mm to 50mm
- Plate Width : 1000mm to 3000mm
