

**Product Name :**  
Displacement Sensing Transducers**Product Code :**  
Measurement0002 LAB ENGINEERING**Description :**

Displacement Sensing Transducers

**Technical Specification :**

Micrometer 0-20mm (Accuracy0.01mm)  
Precision phase sensitive rectifier  
Measurement frequency of 1 KHz sine.  
Zero & span adjustment for calibration of following transducers

- i) Resistive linear transducer 0-20mm
- ii) Capacitive linear transducer 0-20 mm
- iii) Capacitive angular transducer 0-90degree
- iv) Inductive linear transducer 0-20mm
- v) LVDT transducer 0-20mm or (-10 to+10mm)

 **LAB ENGINEERING****Elab Engineering Equipments Manufacturers**
