

Product Name :
THERMOCOUPLE CALIBRATION TEST RIG

Product Code :
Measurement0011

Description :

THERMOCOUPLE CALIBRATION TEST RIG

Technical Specification :

Here simple demonstration setup is provided to experiment with characteristics of Thermocouple. Here using this setup one can calibrate different types of thermocouples. **SPECIFICATIONS**

1. Water Bath with heating arrangement.
2. Thermocouple with necessary signal conditioning circuit.
3. Thermometer.
4. Measurement of oC and Mili Volt on Digital Display
5. Digital Indicator: -
 - Least Count: - 1 deg
 - Digit: - 3 1/2
6. Powder coated enclosure
