

Product Name :
Centrifuge Machine Digital, 5200 r.p.m.

Product Code :
CENTRIFUGES0017

Description :

Centrifuge Machine Digital, 5200 r.p.m.

Technical Specification :

Centrifuge Machine Digital, 5200 r.p.m.

• General Purpose Laboratory Centrifuge Machine

- Microprocessor based (LCD Display)
- Heavy duty C.A.C construction finished with powder coating
- Fitted with well balanced universal rotor
- Digital timer of range 0-99 minutes
- Digital Speed Indicator
- Programmable speed register

- Lid lock for safe drive

Technical Parameter

- Max Speed 5200 rpm

- Motor Universal Motor

- Power AC 220V 50 Hz ± 10%

- Dimension of machine L=410MM, W=200mm, H=320mm

- Dimension of water box 510 x 510 x 300 mm

- Weight of Machine 21kg approx, Weight with box = 23.5kg

Optional accessories at extra cost:

- Electronic motor set lock (Dynamic brake) Imbalance detector

- Price of above machines are without Rotor Head which can be selected by customer as per their specific requirement at extra cost as under

- Cat No. Rotor Capacity Rotor Type

- T-41 16015ml Swing Out Head

- T-41A 12015ml Swing Out Head

- T-41B 8015ml Swing Out Head

- T-42 6020ml Swing Out Head

- T-42A 6020ml Swing Out Head

- T-43 16015ml Angle Head

- T-43A 12015ml Angle Head

- T-43B 8015ml Angle Head

- T-44 6020ml Angle Head

• T-64x 400mm Angle Head

• T-68 4100mm Angle Head

• T-68 24x15mm Angle Head

The above mentioned rotor heads are completed with U.S. size camera, suitable Glass/PVC centrifugal tubes, head pulley, spinner and rubber cushions.

Complete machine is packed in thermal box further packed in corrugated box.

Any Special Rotor Head can be manufactured on customer's demand.

Speed can be given upto 6000rpm if specific requirement by any customer.
