

Product Name :
Refrigerator Centrifuge Machine All Purpose 16000

Product Code :
CENTRIFUGES0023

Description :

Refrigerator Centrifuge Machine All Purpose 16000

Technical Specification :

Twin Tub, Excellent Design with Temp. range from room temperature to minus 8°C is controlled by digital temp. controller cum indicator. Maximum Speed 16000 R.P.M. approx. on load of 1.5lit/200ml head.

-
- Heavy duty CRC construction furnished with powder coating.
- Fitted with well balance universal motor having long life tapered castors.
- Microprocessor based Digital Timer of range 0-10 min. with LCD display.
- Preset speed controls thru microprocessor from 2000 to 16000 r.p.m. but speed of machine depends upon size of rotor, details is given in below mention table.
- Digital display shows Set Time/Run Time/R.P.M.
- Supply is completed with instruction manual, cord & plug to work on 220 Volts 50Hz single phase A.C. The price of mentioned size as per customer's requirement.

● S.S. Bowl Size 11" dia

Following rotors can be selected according to demand of customer

Type of Rotor Max. Speed Ctn. No. Qty.

Rotor Head 12x1.52mm 10000 r.p.m. T-610 1

with reduction adapters of 0.5ml

Rotor Head 6x15mm 8000 r.p.m. T-615 1

Rotor Head 6x50mm 8000 r.p.m. T-615A 1

Dimension of Machine: L=27", W=21", H=15" approx

Weight of Machine: 27 kg approx

Any Special Head can also be manufactured and supplied as per customer's requirement

Weight & Dimension can be changed without prior notice

Any other rotor below 2000ml capacity can also be supplied on customer's demand
