

Product Name :
Chiller Refrigerated Circulator

Product Code :
SCIENTIFIC0011

Description :

Chiller Refrigerated Circulator

Technical Specification :

has built in circulating pump and water tank of rust proof stainless steel. The built in pump has a flow rate of 2.5 meters and internal tank capacity 10 ltr. The temperature is controlled by a digital temp. indicator cum controller.

Construction :

The body of the chiller is mounted on a sturdy angle frame with inner chamber consisting of thick polished stainless steel reservoir with cooling coil duly soldered on the outside of the same to ensure perfect cooling from 4°C to below ambient. The hollow space between the inner chamber and outer wall is filled with high grade insulation to prevent loss of temperature the refrigeration system consisting of hermetically sealed R600a marked vapour sealed compressor for minimum noise level and smooth operation.
