

Product Name :
MUFFLE FURNACE

Product Code :
SCIENTIFIC0017

Description :

MUFFLE FURNACE

Technical Specification :

Industrial Furnace Gaseous Type Working temperature is 1020°C inside chamber is made of grooved refractory for supporting the heating elements on all four sides. Outer body is made of thick mild steel sheet, painted in attractive enamel enamel paint. Heating element made of kanthal wire which is easily replaceable. Complete with energy regulator, pyrometer, indicator, thermocouple and copper thermal box

It works on 220/230 or 400/440 volts AC

Muffle size 100x100x200mm weight 4.5 kg

Muffle size 150x100x200mm weight 4.5 kg

Muffle size 200x100x200mm weight 6.0 kg

Muffle size 300x100x200mm weight 8.0 kg

Digital temperature controller with indicator for industrial furnace provided in separate box at an extra cost with delivery
