

Product Name :
 Medical Microscope

Product Code :
 MICROSCOPES0018

Description :

Medical Microscope

Technical Specification :

Medical microscope with attachable mechanical stage - Suitable for observations of cells and micro living things by using the wide-angle strain free eyepiece.

Features:-

Strain free wide field eyepiece WF 10x

- 1. High magnification eyepiece
- 2. Four achromatic par focal objective lens, 10x, 45x (S1) and 100x (S2) oil immersion or four achromatic coated par focal objective lens, 10x, 45x (S1) and 100x (S2) oil immersion
- 3. Available with locked to stage slide with attachable graduated mechanical stage
- 4. Drawtube cap and condenser lens holder with sensitivity of 0.01 mm
- 5. Suitable with fine Coarse focus, 125 mm fine stage height and fine focus, accessible by rack & pinion movement by knob on lower left side.
- 6. 50 mm plane condenser lens (interchangeable with electric illuminator)
- 7. Mechanical tube length 160x 2 mm.

Specifications:-

Cat. No. 111 (S1) 111(S2)

Head	Straight tube
Eyepiece	20mm WF 10x & 10mm WF 10x
Drawtube	Coarse and fine focus
Mechanical stage	Attachable graduated mechanical stage
Condenser	Abbe condenser (NA 1.25) with iris, filter holder
Tube magnification	30-1000x
Objectives	Four achromatic parafocal Objective lens, 10x, 45x
	Four achromatic coated parafocal objective lens, 10x (S1) & 100x (S2)
