

Product Name :
 Medical Microscope

Product Code :
 MICROSCOPES0018

Description :

Medical Microscope

Technical Specification :

Medical microscope with attachable mechanical stage - Suitable for observations of cells and micro living things by using the wide-angle strain free eyepiece.

Features:-

Strain free wide field eyepiece 10X 15x

- 1. High magnification 4x
- 2. Four achromatic par focal objectives 5x, 10x 45x (S1) and 100x (S2) of immersion of four achromatic coated par focal objective 4x, 10x, 45x (S1) and 100x (S2) of immersion
- 3. Available with locked in stage clips with attachable graduated mechanical stage
- 4. Condenser cap with graduated fine focus with sensitivity of 0.01 mm.
- 5. Suitable with fine coarse focus, 10x, 12x with fine slow stage and fine holder, accessible by rack & pinion movement by knob on lower left side.
- 6. 50 mm plane condenser mirror (interchangeable with electric illuminator)
- 7. Mechanical tube length 160x 2 mm.

Specifications:

Cat. No. 111 (S1) 111(S2)

Head	Straight tube
Eyepiece	20mm, 10x 10x (S1) & 10x (S2)
Stage	Coarse fine focus mirror
Mechanical stage	Attachable graduated mechanical stage
Condenser	Abbe condenser (NA 1.25) with fine, filter holder
Tube magnification	30-1500x
Objectives	Four achromatic parafocal Four achromatic coated parafocal objective 4x, Objective 5x, 10x, 45x
	(S1) & 100x (S2) 10x (S1) & 100x (S2)
