

Product Name :
Direct Shear Test Apparatus Motorised

Product Code :
Soil Testing0016

Description :

Direct Shear Test Apparatus Motorised

Technical Specification :

Building on our extensive experience in the domain, we have been able to design and develop reliable and durable range of Direct Shear Apparatus Motorised. Manufactured making use of excellent grade components and with the aid of sophisticated technologies, the range is suitable for operation on 230V/50Hz single phase A.C. supply.

Specifications:

- Direct Shear Apparatus (Motorised Testing Speeds)

- © 2020 (Pw-115), A2TM 0 3000

- Dial gauge: 0.01 x 25mm

- Proving Ring 20002 50N

- 12 sizes of wires: 1.25, 0.625, 0.25, 0.125, 0.01, 0.002, 0.005, 0.0001, 0.0004 and 0.0002 mm min

- For determine the direct shear strength of soils on specimens size 60mm x 60mm x 25mm
