

Product Name :
Electro Pneumatic Circuit Trainer

Product Code :
CONTROL0005

Description :

Electro Pneumatic Circuit Trainer

Technical Specification :

1. Electrical control of double acting cylinder.

2. Sequence of double acting cylinder.

3. Pneumatic logic.

4. Semi-automatic sequencing of two double acting cylinder.

5. Continuous sequencing of two double acting cylinders with solenoid valves.

6. Continuous sequencing of two double acting cylinders with solenoid valves.

7. Sequencing of two cylinders.

8. Speed control circuits.

9. Quick return / fast approach circuits.

10. Different programs using PLC (Sequencing circuits and logic circuits)
