

Product Name :
Energy Band Gap For Semi Conductor Diode

Product Code :
EEI0014

Description :

Energy Band Gap For Semi Conductor Diode

Technical Specification :

To plot reverse saturation current vs temperature in reverse biased pn junction diode.

Features:

Instrument comprises of DC regulated power supply 0-200DC/150mA, two round meters for voltage & current measurement, one PN junction diode (GE type) is kept in oven, connections of supplies, meters & diode brought out at three sockets. Also provided with oven with temperature control knob.
