

**Product Name :**  
Plank s Constant Apparatus

**Product Code :**  
EEI0016

### Description :

Plank s Constant Apparatus

### Technical Specification :

To Plot Forward & Reverse Char of a Vacuum Photo Cell & Calculate its stopping potential.

Features:-

Dual Range Power supply 0-110V/50-50 VDC with dual range voltmeter & one sensitive centre zero Galvanometer of 25 $\mu$ A movement Photo Cell mounted in wooden box having window for incident light & also for sliding the various filters. One wooden Plank with 1/2 meter scale, light source with 100W lamp 7 set of filters.
