

Product Name :
Plank s Constant Apparatus

Product Code :
EEI0016

 **LAB ENGINEERING**

Description :

Plank s Constant Apparatus

Technical Specification :

To Plot Forward & Reverse Char of a Vacuum Photo cell & to Calculate its stopping potential.

Features:-

Dual Range Power supply 0-110VDC-50 VDC with one dual range voltmeter & one sensitive centre zero Galvanometer of 250A movement Photo Cell mounted in wooden box having window for incident light & also for sliding the various filters. One wooden Plank with 1/2 meter scale, light source with 100W lamp 7 set of filters.
