

Product Name :
E/m By Short Solenoid Method

Product Code :
EEI0017

 **LAB ENGINEERING**

Description :

E/m By Short Solenoid Method

Technical Specification :

Kit Consists of Low Voltage DC Power Supply unit with Filament Voltage & Solenoid Current controls. Two meters are provided for Anode Voltage controls. One Solenoid Unit Consists of one Solenoid mounted on wooden stand & Valve #1 is kept in the Solenoid pot.
