

**Product Name :**  
AUTOMATIC TISSUE PROCESSOR

**Product Code :**  
MEDICAL0008

**Description :**

AUTOMATIC TISSUE PROCESSOR

**Technical Specification :**

Quiet and smooth motor and gear operation.

Stainless steel tissue baskets and covers.

Standard over temperature cutoff safety feature.

2 thermostatically controlled wax baths from 10 deg C to 60 deg C.

Six and 24 hour calibrated timing device.

24 tissue containers (Cassettes).

1 rack cutting plate.

With or without safety device.

Programmable 12 stage timing sequence.

1 to 2 stainless steel basket covers.

10 without top glass baskets (2 to 1, 1 to 2 to 2 to 2).

Delay action of 24 hour.								
Accessories (Optional) >								
Additional basket size								
Tissue capsule basket SS.								
Tissue capsules with sliding cover.								
S. Slope divider for tissue capsule.								
V. Slope divider for tissue capsule.								
Calibrating timing discs.								
Operation	Electrical					Microprocessor		
Interruption time / System	Through 24 hrs. Calibrated Disc.					up to 16 hrs. 30 min.		
Delayed start	24 Hrs.					99 Hrs.		
Wash bath temperature	Thermoelectrically controlled					Ambient +82°C		
No. of Baskets	10					10		
Chamber Size (Dia.)	36mm						36mm	
Tissue processing cap.	24	24	48	70	24			
S.S. basket	1	1	2	2	1			
Basket Filter	1	1	2	2	1			
Basket capacity (lit)	1	1	1	2	1
