

Product Name :
Tissue Embedding and Cooling Systems

Product Code :
MEDICAL0012

Description :

Tissue Embedding and Cooling Systems

Technical Specification :

Setting temperature range ambient to 99 deg C.

Five independent heating zones for better performance.

Programmable for both ON TIME & OFF TIME.

Electrically heated forceps holder.

Set temperature memorization.

Panel lamp. Display for all heated / cooled areas.

Paraffin flow control can be done manually by a switch or through foot switch.

Removable water tray.

Bright illumination of the work area.

Issue Embedding Center same as above but with a cooling spot on Tissue Embedding Center for instant cooling.

Control of cooling temperature ambient to 20 deg C

Quick specimen cooling

Chilling area for approximately 60 standard containers

Easy to clean

Environment friendly refrigerant
