

Product Name :
 HIGH TEMPERATURE DELUXE OVEN

Product Code :
 BMHCE0022

Description :

HIGH TEMPERATURE DELUXE OVEN

Technical Specification :

Double double wall fabrication, inner chamber made of richly anodized aluminum or highly polished stainless steel sheet. Exterior fabricated out of thick mild steel sheet duly finished in semi enamel off-white paint or pale blue from colour combination.

The gap between the walls is filled with special grade glass wool for heat insulation. Inner chamber is fitted for placing shelves at convenient levels. Provided with two or three removable shelves. Special aligned door closing device has been provided.

Nichrome wire heating elements provided on three sides allow quick and uniform heating in range of 50°C to 250°C ± 1°C controlled by capillary type thermostat.

Calibrated thermometer is built-in type. Control panel is provided with selector switch of high or low rate of power, thermostat control knob and indicators for main & thermostat. Supplied with cord and plug. The equipment is suitable to operate on 220 V AC 50/60 single phase.

Chamber size in mm (inches)	No. of shelves
600 x 300 x 200 (24" x 12" x 8")	2
800 x 400 x 250 (31" x 16" x 10")	2
1000 x 500 x 300 (39" x 20" x 12")	2
1200 x 600 x 350 (47" x 24" x 14")	2
1500 x 750 x 400 (59" x 30" x 16")	2
1800 x 900 x 450 (70" x 36" x 18")	2
2000 x 1000 x 500 (78" x 40" x 20")	2
2500 x 1250 x 600 (98" x 50" x 24")	2
3000 x 1500 x 700 (118" x 60" x 28")	2

Optional :-

- 01 Air Circulation
- 02 Tared Cell feature
- 03 Digital Temp. Indicator-Cum Controller
- 04 Internal Temperature Controller with the accuracy of ±1°C
- 05 Digital Temp. Indicator
