

Product Name :
PASS BOX CLASS

Product Code :
BMHCE0051

Description :

PASS BOX CLASS

Technical Specification :

Our **Pass Box** are essential for the transfer of work item in and out of the Clean Room in order to minimize airborne particles brought about by human traffic. Our reliable mechanisms prevent both Pass-Through doors from opening at the same time, thereby preventing contamination. Continuous-seam interiors create a hermetically sealed chamber with no cracks or crevices. Its ergonomic, chrome-plated Lift Latches eliminate rotary strain on hinges. It has a built-in UV germicidal light for extra protection. The door at two sides of pass box, allows only one door to be open at a time magnetic interlocking type doors of pass box.
