

**Product Name :**  
Gunn Power Supply**Product Code :**  
MCRW0002 LAB ENGINEERING**Description :**

Gunn Power Supply

**Technical Specification :**

This is a Micro controller based Equipment with LCD. The very important feature of this instrument is the simultaneous display of Voltage and Current which is the basic and necessary requirement of V-I Characteristics experiment. Here different Modulation Modes are single switch selectable with display on LCD. For PC to PC Data Communication Experiment a Software is provided with this instrument.
