

Product Name :
Soil Cone Penetrometer

Product Code :
SOL0001

Description :

Soil Cone Penetrometer

Technical Specification :

For determining the liquid limit of soils. This is specially useful to obtain reliable and accurate results of those soil which have low plasticity index. The percentage moisture contents determined when cone with half angle for 15-30 minutes under a total sliding weight of 148 gm penetrates 25mm gives the liquid limit.

We are well-known manufacturers, OEM suppliers of Soil Cone Penetrometer for Soil Geo-Technical Testing Equipments. Contact us for high quality Soil Cone Penetrometer for Soil Geo-Technical Testing Equipments for schools lab, college lab, universities, research labs, various teaching and workshop training laboratories and industries in India.
