

**Product Name :**  
TOUCH PANEL TRAINER

**Product Code :**  
EELELABT10014

### Description :

TOUCH PANEL TRAINER

### Technical Specification :

Touch sensor controller

8051 compatible

16\*2 LCD display to show value of X,Y Co-ordinates value

On board power supply section with power indicator and test point

Working Voltage 3-5 V DC

Output Reading Rate Every 50 Mili Seconds

Data Format (Fixed Length) 22 Byte ASCII

The baud rate of output is 9600 bps. It output X, Y and Z values

The XY are co-ordinates of touch and Z is pressure value

EXPERIMENTS:-

---

To study and observe the value of x , y and z coordinates when any stylus or finger is observed on touch screen.
