ⓒ LAB ENGINEERING

Product Name : TEMPERATURE SENSOR TRAINER	**Product Code :** EELELABT10018

Description :

TEMPERATURE SENSOR TRAINER

Technical Specification :

Facility To Test Different Teperature Sensors Lm35,Rtd,Thermistor & Thermocouple

Sensors Plug And Play Facility Using Input Banana Sockets

Test Points To Measure Output Of Each Sensor

Easy Sensors Input Selection Using On/Off Switches

On Board 8 Channel Adc For Analog To Digital Conversion

Operational Amplifier Circuitary To Boost Signals

Easy To Use And Interface With Any Processor

Display In Lcd 16*2.

On Board Buzzer Facility For Indication
