Digital Respinometer**Product Code :**  
ELAB-PHM0013 LAB ENGINEERING**Description :**

Digital Respinometer

**Technical Specification :**

Digital Respinometer  
Polished Stainless Steel tank, with capacity of 7 manometers a side.  
Digital temperature display with resolution of 0.1 deg. C.  
Temperature control to within +/-0.5 deg. C.  
Stainless Steel immersion heater.  
Stirrer for uniform temperature.  
Manometers mounted on graduated scale for reading pressure changes.  
Flask with center well & side flask attached to manometer.  
Oscillation of manometer approximately 90 rpm.  
Powder coated exterior, with wheels for easy mobility.  
Capacity 7 manometers, temperature range of 5 deg.  
C above ambient to 60 deg. C.
