

Product Name :
Digital Respinometer

Product Code :
ELAB-PHM0013

Description :

Digital Respinometer

Technical Specification :

Digital Respinometer
Polished Stainless Steel tank, with capacity of 7 manometers a side.
Digital temperature display with resolution of 0.1 deg. C.
Temperature control to within +/-0.5 deg. C.
Stainless Steel immersion heater.
Stirrer for uniform temperature.
Manometers mounted on graduated scale for reading pressure changes.
Flask with center well & side flask attached to manometer.
Oscillation of manometer approximately 90 rpm.
Powder coated exterior, with wheels for easy mobility.
Capacity 7 manometers, temperature range of 5 deg.
C above ambient to 60 deg. C.
