

Product Name :
Air Showers**Product Code :**
ELAB-CLN0002 LAB ENGINEERING**Description :**

Air Showers

Technical Specification :

Air Showers Air Showers are designed to provide protection from biological & particulate contamination in high traffic areas and entrances of clean air laboratories or rooms. Outer made of thick CRC sheet duly powder coated. Dynamically balanced blowers with minimum vibration and noise level draw the air and blow it through high efficiency Hepa filters accurate down to 0.3 microns with efficiency of 99.97% bacteria free area. Automatic actuating air-shower operation, adjustable time-duration of air-showers, recirculation of uncontaminated air, adjustable air-nozzles, clear acrylic door, solid state control system, provision of fluorescent tube lighting are the main technical features. Available in:- Class 10000 Class 100
