

Product Name :
Syringe Infusion Pump**Product Code :**
ELAB-INP0002 LAB ENGINEERING**Description :**

Syringe Infusion Pump

Technical Specification :

Syringe Infusion Pump
Self-explanatory with abbreviated operating instructions on LCD.
Easy-to-read liquid-crystal displays all essential data in large size numbers.
Reducing the chance of erroneous readings.
LCD provided with back light for viewing in dark environments.
Selectable three-step occlusion detection pressures.
Low, mid & high-occlusion setting.
"Keep-Vein-Open" function.
Infusion rate in KVO is 1% but not less than 0. 1 ml/hr.
This prevent the infusion line from blocking due to blood clots.
