

**Product Name :**  
Pulse Oximeter System**Product Code :**  
ELAB-PULS0001**Description :**

Pulse Oximeter System

**Technical Specification :**

Pulse Oximeter System

Large screen: SpO<sub>2</sub>, PR are shown on LED screen, Pleth waveform is displayed on 3.5" LCD screen in real time.

Light in weight, only 1kg with battery.

72-hour data storage, 100-item patient ID

72-hour SpO<sub>2</sub> and PR spot graphs

3-level visual &amp; audio alarmIntellectual control of power consumption, internal rechargeable battery lasts 24 hours or AC power

Battery-low indication

Built-in thermal recorder(optional)

Suitable for adult, pediatric and neonatal

Widely used in small clinic, all departments in hospital, ambulance

Compatible with CHOICE central monitoring system

USB data upload (optional)

Anti-high-frequency electrosurgical equipment
