

Product Name :
Force Mete Spring Balance

Product Code :
ELAB-MSR0004

Description :

Force Mete Spring Balance

Technical Specification :

The unique design of this instrument means that it not only weighs suspended objects but also, using the extended rod, can measure the force pushing or pulling an object.
The device is colored-coded, calibrated in grams and newtons, and has a clear. Flat area on the rod so you can use a dry-wipe marker to create your own scale.
Includes instructions and ideas sheet. Red. 2 kg.
