

**Product Name :**  
Cut Model of Rear Axle with Locking Differential**Product Code :**  
AUTE00014**Description :**

Cut Model of Rear Axle with Locking Differential

**Technical Specification :**

The cutaway model of Rear Axle with locking differential is carefully sectioned for training purposes, professionally painted with different colours to better differentiate the various parts and cross-sections. Many parts have been chromium-plated and galvanized for a longer life.

The model will be mounted on to a tubular frame.

The painting will be carried out in such a way that different colors will be use for different components such as identification of sectioned area etc. according to the colors code for easy identification of different systems and mechanisms.

Suitable color imported painting will be carried out along with Miracle coating for the model will be done for extra gloss and shine.

All the hardware's and gears will be suitably electroplated.

**FEATURES:**

Operated: Manually (Through a Crank Handle)

Equipment Layout: On Base

Fine finish

Simple operations

Functional accuracy

**SPECIFICATION:**

The main components are:

Axle shafts

Bevel gear (pinion – crown)

---

Differential (satellite and planetary) with locking differential  
Reducer and planetary on the hub  
Brakes with jaws/drum  
Double air brake element
