Description :

Water Jet Machine

Technical Specification :

The exclusive advanced Intelli-TRAX digital linear encoder provides one-micron resolution instant feedback to the motor control system so the machine knows precisely where the cutting head is at all times. The mobile control station with widescreen display provides flexibility in controller positioning. Optional accessories such as the A-Jet for 5-axis cutting and taper compensation, Rapid Water Level Control for submerged cutting, and DualPUMP options that provide up to 80 hp of power expand your Jet Machining capabilities and dramatically improve production.
