

**Product Name :**  
Matlab**Product Code :**  
ELAB-ENG-04-0001**Description :**

Matlab

**Technical Specification :**

MATLAB is a programming software used mainly for calculations, statistics and displaying data. Although it is extremely popular among scientists and engineers, it is also heavily used among mathematicians and businessmen.

It's very user friendly and is a regular tool in many disciplines," said Cynthia Furse, professor of electrical engineering. "It's also used in industry, so it's not just an academic tool.
