

Product Name :
Laboratory Flumes and Channels**Product Code :**
ELAB-DAC-04-0001**Description :**

Laboratory Flumes and Channels

Technical Specification :

New research flumes available as standard
Laboratory Flumes and Channels for Hydraulic Teaching and Research Studies
Standard Flumes
Special Flumes, Tanks and Basins
Mono and Random Wave Makers
Ancillary Equipment
Sediment Transport Facilities.

Instrumentation:

Usually channels are of rectangular prismatic section. The dimensions of the working cross-section and length are the principal features which determine both the functional suitability and the cost of a channel. This brochure presents the full range of channels/flumes available from, both teaching & research, standard & special. There are also general comments about the design, flexibility & accuracy of flumes in order to assist those embarking on the specifying & purchase of flumes for advanced studies or research.
